## Quality Test Planner (m/f/d) full-time

EPflex is one of the world's most important manufacturers of metallic components for minimally invasive medicine. With numerous patents and innovations, we are among the pioneers in our industry. With around 400 employees, we push the boundaries of minimally invasive surgery every day. For patients, this means shorter procedures, less pain and faster recovery.

### YOUR TASKS

- Creation or updating of test instructions for the incoming goods / if necessary, in-process & outgoing goods inspections
- Determination of the testing method as well as the scope of testing in coordination with the QA or development department
- Creation of EMPB's including their evaluation and, if necessary, initiation, implementation and tracking of measures for the conversion of the production facility
- Checking and possible optimization of existing test procedures

### YOUR PROFILE

- Successfully completed technical training or corresponding relevant professional experience
- Knowledge of quality management, especially with regard to the area of responsibility
- Good technical product understanding
- Mastery of common software programs (Office, databases, etc.) as well as experience in using CAQ systems
- Friendly, result-oriented and structured way of working
- Confident and assertive appearance
